

List of appendices

1. Accessible summaries and examples of session output

In this document we provide examples of treatment content taken from flipcharts of actual group treatment sessions with men with intellectual disabilities at risk of sexual offending. They are not intended to be examples of model practice but rather to give facilitators ideas about how to present information to group participants.

The following are included in this appendix:

- Examples of Sex Education Content
- Examples of Victim Empathy Work
- Examples of Relapse Prevention Plans

2. Information sheets and consent forms

These were used in our early work (2000 to 2010 approx).

More recent ones with pictures were developed for the HaSB-IDD trial and can be obtained from safer-idd@kent.ac.uk
