# Numbers (A1-) 

Teacher's notes

Tasks 1, 4, and 6.
Students should be encouraged to practice saying the numbers.

## Task 2.

The teacher calls out numbers from 0 to 10 , which the students write down. Students can be asked to write the numbers in both number and written form.

Students can also do this among themselves, with one student calling out the numbers and the other(s) writing them down.

## Task 8.

Each student receives one of the bingo cards (see next page).
The teacher cuts out and randomly draws numbers from 1 to 100 (see last page).
If the number is on a student's card, they cross it out.
The first student to complete their card shouts 'bingo' and wins.
Alternatively, the students can also play amongst themselves.
